Lokesvej 70, 3.5 Åbyhøj 8230

Software Developer

- 3 years of experience as a self-taught developer, building apps, websites and databases.
- Strong background in OOP and robust software solutions with Python, TypeScript and Next.js, plus backend in Node, external API integration (OpenAI, Anthropic) and db design in PostgreSQL.

EXPERIENCE

Software Intern, Reportability (Digital Revisor) — June 2026 - August 2026

- Built a Go HTTP server from scratch, to query user data from MongoDB.
- Containerised parts of the backend with Docker and set up CORS to access the API.

Software Developer, Anzaro Quantum Healing — June 2024 - Now

- Building and maintaining the companies own apps as well as client websites, from feature development to maintenance and user feedback, in cooperation with other developers.

PROJECTS

VibeAlign (apps.apple.com/app/id6746861813) — App, Developer & Maintainer (Flutter)

- Built an AI app from scratch, generating personalised content per user via the OpenAI and Anthropic APIs, with fallback between the models on usage limits.
- Reduced token usage and cached daily responses to cut API calls and cost.

Dit Samfund (apps.apple.com/app/id6760254894) — App/Website, Lead Dev (React, TypeScript)

- Built an AI-augmented website, app and admin dashboard from scratch.
- Built the backend in TypeScript on Firebase Cloud Functions and Firestore with real-time sync.

Ikast Fatih Camii (ikastmoske.dk) — Website & Dashboard, Lead Developer (React, Supabase)

- Imported and parsed member data into a dashboard tracking member payments.
- Built a live display showing real-time data from the db on physical screens.

Key Combo Lookup (KLombe.com) — Web Tool & Database (React, PostgreSQL)

- Lookup for how to type any given character on any given keyboard layout.
- Normalised PostgreSQL database and Python parsers for 100+ layouts and 40,000+ combinations. Auto-deploy via Github Actions (CI/CD).

COMPETENCIES

Dart (Flutter)

- 2 years of experience building production ready mobile and web apps.

Python

- 2 years of web development, backend logic and parsing structured data.

TypeScript (React, Next.js, Node)

- 1 year of experience with frontend and backend development.

Databases (PostgreSQL, Supabase, Firebase, MongoDB)

- Relational database design in PostgreSQL and noSQL in production.

Language

- Danish (native), Turkish (native), English (Fluent).
